Title: SEMINAR ON DIABETES, ITS MANAGEMENT AND COMPLICATIONS: AN UPDATE

Description: The seminar is for health care professionals (HCP): medical doctors and other allied health care professionals, who are interested to enhance their knowledge and skills in managing diabetes, as well as promote the right attitude in handling people with diabetes. Review and update on Diabetes, management and complications will be the done. Pharmacologic management throughout the lifespan will be given emphasis. To intensify the effect of pharmacologic management, basic medical nutrition therapy (MNT) will be discussed. Managing diabetes is not the sole responsibility of HCP thus self-management education will be introduced towards empowerment of people with diabetes. To augment the knowledge on Insulin therapy and monitoring of blood sugar, actual demonstration on how to inject and monitor will be done.

Lecturer & Facilitator:

Diabetes Philippines (DP) Board of Directors, and Members of HCP

Methodology:

Lecture, Discussion,
Case Analysis,
Demonstration and Return Demonstration

General Objectives: At the end of the seminar, the participants will be able to enhance their skills in managing diabetes.

Specifically, the participants will be able to:

1. Discuss the updated concepts related to diabetes, its risk factors, signs and symptoms, classifications, complications and management.
2. Show the importance of diabetes self-management education as a tool to empower people with diabetes
3. Demonstrate insulin injection technique and blood glucose monitoring
